

## **Named Accountable GP for ALL patients**

Patients registered with Kingsway Medical Centre have a named GP.

If you have a repeat prescription, the name of your accountable GP will be printed on the bottom of the right hand page of the prescription.

For patients who have electronic prescriptions, or where the Pharmacy order medication, the Pharmacy staff will be able to give you any messages or information on your prescription.

If you do not have a repeat prescription and wish to know who your allocated GP is, please ask at your next appointment.

**At Kingsway Medical Centre, the GPs work closely together; this change does not prevent you from seeing any doctor at the practice. Please be aware that due to holidays and other commitments, your named GP may not always be available. If you request an emergency appointment, this will be with any of the doctors who have available appointments.**

We hope this information is helpful.
